QUTA ZJ200-A70

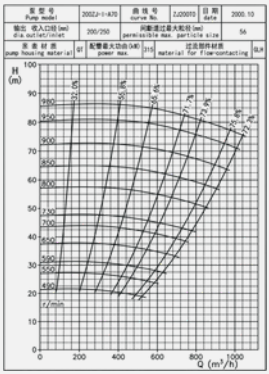

Pump Type :Slurry Pump Type ZJ Suction Pipe :10" (Inch) Discharge Pipe :8" (Inch) Capacity :205-976 M3/h Head :19.4-86.4 M Fuel capacity :2.300 L Engine :Volvo Type :TAD1343VE Power :332 Kw @ 1500 rpm

PERFORMANCE CURVE

QUTA PUMP ZJ SERIES | KEY FEATURES

- Permissible Particle Size: Handles solids up to 56 mm
- High Chrome & Ductile Iron: High-chrome wet-end components with ductile iron Frame Plate & Cover Plate for excellent wear resistance
- Open Pit Application: Suitable for demanding slurry and dewatering applications in open pit mining
- Flexible Drive System: Available with engine or electric motor to suit operational requirements
- Adjustable Speed Gearbox: Allows pump speed adjustment to match application requirements
- Oil-Lubricated Vacuum Pump: Supports efficient priming for easier operation
